

FEATHER IN THISTLE ROSE'S CAP

One of our SprutCAM users, who modify vans and make that just great by the help of SprutCAM.

Our new robot Arnie - hard at work making a pattern for a fiberglass part for the interior of an ambulance we are currently designing for www.alliedvehiclesgroup.com

Our floor for the VW T5. Freshly cut by Arnie. Given I cut the last one with a circular saw, a jig saw and liberal amounts of bad language I'm glad to have Arnie on the team.

THISTLE ROSE
